SP-5 Fork Kit Specs

BBR SP-5 Fork Kits come **standard** with **4.0oz** per leg of **10wt** fork oil and **.58kg** fork springs. This setting works great for *an average size adult of 150lbs under normal play riding conditions.*

Fork settings should be fine-tuned for your weight and riding ability using different oil weights, oil volumes and springs.

Recommended BBR settings:

<u>RIDER</u>	<u>OIL WEIGHT</u>	<u>OIL VOLUME</u>	<u>SPRING RATE</u>
80lb Beginner (kid)	5 or 10wt	3.8oz per leg	.58kg
125-150lb Play Riding	10 or 15wt	4.0oz per leg	.58kg
150-175lb Play Riding	15 or 20wt	4.0oz per leg	.58kg
175 and Up or Aggressive Riding	20 or 30wt	4.0oz per leg	.64kg

MINIMUM OIL 3.8OZ

MAXIMUM OIL 4.0OZ

Optional fork oil weights can be found at your local dealer.

Optional .64kg fork springs (#650-HXR-7005) can be purchased direct from BBR or from your local dealer.

WARNING

Excessive and/or continued fork bottoming, and/or using more than 4.0oz of fork oil per leg will result in leaking or blown fork seals. Replacement BBR fork seals are available (#635-HXR-5100).

For assistance with fork kit installation or with fine-tuning your BBR SP-5 fork kit, please contact your local dealer or contact technical support at BBR Motorsports at 1-888-MOTO-BBR (1-888-668-6227), ext 2.

Thanks for riding with BBR.
